Bunker Price: The Bunker Price is defined on the basis of the average value of the VLSFO (0.5% Sulfur content). Blue World Line will treat the Low Sulfur surcharge for Emission Control Areas (Europe, Americas, China, Taiwan, Hong Kong) independently and it will be displayed as a separate surcharge.

In the course of the second half of 2019, but not later than January 2020 the IFO 380 will be replaced with an Index displaying the Bunker Price for Fuel with a sulfur content of 0,5% or below.

Review Period: Blue World Line Bunker will be regularly adjusted, initially on a quarterly basis, based on the average VLSFO (location is trade specific) price. Blue World Line reserves the right to provide an adjustment on a monthly or shorter basis.
